

Upcoming Events

Disturbance effects on watershed function: FORREX and Canadian Institute of Forestry—National electronic lecture series

April 15, 2009. *Potential effects of climate change on hydrology, geomorphology, and aquatic ecology in BC.* Robin Pike, David Campbell, and Peter Tschaplinski (BC MFR).

April 22, 2009. *Prince George Small Stream Management Project—Small stream riparian research in the BC sub-boreal: Findings and management considerations.* John Rex (BC MFR).

May 20, 2009. *Stream temperature response to forest management and natural disturbance.* R.D. (Dan) Moore (UBC).

All electronic lectures take place at 10:30 am PST (1:30 pm EST). The lectures are free to CIF/IFC members or \$25/lecture for non-members. Information can be found at www.cif-ifc.org/site/electure or contact Michelle Nadeau at mnadeau@cif-ifc.org or 705-744-1715 ext 609.

Silviculture II

April 26–May 3, 2009. Malcolm Knapp Research Forest, Maple Ridge, BC.

Silviculture II deals with the stand tending silviculture practices from free growing through to final harvest of a stand. Decision making in crop planning, stand dynamics, operational problems and relevant history policy and regulatory issues and underlining science theory are also covered. For more information and registration, please contact Susan Craven at 604-980-6822 or cravens@uniserve.com

PricewaterhouseCoopers Global forest & paper industry conference 2009: ReEnergising the forest & paper industry

May 14, 2009. Vancouver, BC.

Learn how leading CEOs, senior executives, analysts, customers, and suppliers in the forest products sector are adjusting to today's economic situation, addressing climate change and other challenges, and finding new business opportunities. More information can be found at www.pwc.com/forestconf09

Conserving wetlands in British Columbia

May 28–29, 2009. Revelstoke, BC.

Presented by the Columbia Mountains Institute of Applied Ecology, the conference will examine how a combination of management, restoration, and stewardship projects can improve the ecological values of our wetlands. For more information, please visit the CMI website at www.cmaie.org/

BC Community Forest Association: 2009 Annual Conference and AGM

May 28–31, 2009. Port Alberni, BC.

The BC Community Forest Association and the City of Port Alberni invite you to attend the BCCFA Annual General Meeting and Conference. The conference is about sharing experiences, information, and strategies for navigating these difficult times. All conference information can be found on the BCCFA website at: www.bccfa.ca/conferences.php

Mountain pine beetle and watershed hydrology workshop

June 2, 2009. Kelowna, BC.

This workshop will present results of ongoing and recent research on the hydrologic and geomorphic effects of mountain pine beetle and post-beetle salvage logging. The target audience includes individuals who need information on the potential hydrologic and geomorphic impacts of wildfire and post-wildfire land management activities (e.g., salvage logging). For more information, please visit www.forrex.org/program/water/mpb_water_management.asp or contact Kevin. Bladon@forrex.org. To register online, go to www.eplyevents.com/watershed-workshops

Wildfire and watershed hydrology workshop

June 3–4, 2009. Kelowna, BC.

This workshop will provide new information/knowledge to assist decision making and provide feedback to researchers that will help refine research plans and interpretation of results. For more information, please visit www.forrex.org/program/water/wildfire_watershed_hydrology.asp or contact Kevin. Bladon@forrex.org. To register online, go to www.eplyevents.com/watershed-workshops
