Web-based Resources

Watershed Management Listserv

WatershedExt is a mailing list operated by the FORREX Watershed Management Extension Program (WMEP). Subscribers receive announcements of news, courses and events relevant to watershed management in British Columbia as well as information on new WMEP products. This service is low volume (one to two times a month). To subscribe, visit
www.forrex.org/tools/listserv/listserv.asp

Hydrometric and Climate Data

Environment Canada has revised their price policy for Hydrometric (HYDAT) and Climate (CDCD) data. ISO images of each

CD can now be downloaded from their web site FREE-OF-CHARGE! Links to the ISO images can be accessed through

CDCD: www.msc.ec.gc.ca/climate/products_services/cdcd_iso_e.cfm

HyDAT: www.msc.ec.gc.ca/climate/hydat/hydat_iso_e.cfm

Once downloaded, ISO images can be made into CD's using the appropriate CD writer and software. Instructions are provided on their web site. Prices for off-the-shelf CD's are \$100 + \$15 shipping + GST. To find out more about current access to Water Survey of Canada's data products and services:

www.msc-smc.ec.gc.ca/wsc/
